

## Rockwell Part

Rockwell Parts - AxleTech International is a premier dealer in the globe of specialty vehicle drive-train systems and components together with off highway vehicles. The business prides itself on being its clients' chosen supplier. AxleTech strives to exceed and meet their clients' expectations for technology, delivery, quality and service. They believe in working within an atmosphere which encourages the highest integrity with empowered teamwork, combined with a unremitting pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They place great emphasis on being an environmentally conscious business and offering a safe environment for their staff to work in. What's more, they have implemented a lot of programs within the organization to be able to help articulate these values within their business policy. AxleTech gladly shares this policy and welcomes interested parties to provide them with whatever questions or comments, as they are happy to share and promote this policy with a greater knowledge of their efforts. They are extremely devoted to preserving and improving the natural world. AxleTech has an EHS program that not only protects the environment but which even actively protects their employees and neighbors too.

AxleTech prides themselves as being a ground-breaking drive-train solutions provider. They specialize in manufacturing and designing planetary axles used for both military and commercial applications. These applications range from airport ground support to construction equipment. AxleTech specially designs axles to meet certain application demands. They have over 1000 different axle specs within their existing offering. With more than one hundred years of experience and history, AxleTech proudly supplies the most complete solution for whichever of your axle requirements. The company is well known in several commercial and military applications. They provide complete axle assemblies utilized for aftermarket replacement needs, together with servicing axle requirements for OE production. Their high mobility ISAS have added details that can be seen in the "ISAS" product collection.
