

Meritor Parts

Meritor Parts - The Meritor Company is a leading global dealer founded upon 100 years of tradition of service and quality. Meritor concentrates on integrated systems together with various modules and parts to the original equipment manufacturers and aftermarket equipment within the industrial and transportation sectors.

Meritor values the requirements of all their customers to ensure their success while priding itself in the company's unique energy and feels this output of energy to be their aggressive advantage in their global operations. Meritor begins with a tradition which values diversity of people and their broad thought processes. Operating in 19 nations and hiring over eleven thousand two hundred individuals, Meritor promotes collaboration and innovation among a team of knowledgeable professionals.

Meritor strongly believes in just hiring future focused employees. These top-caliber people could quickly adapt to changing environments and freely demonstrate the level of performance and commitment required so as to get results for the competitive market environment. The business empowers their teams to make sound business decisions so as to improve the overall success of the company. In return, Meritor offers all of their workers various opportunities for personal and professional development.

The Advanced Engineering team is on the forefront of components and system engineering. This comprises axles, drivelines, braking and suspension systems intended for heavy duty and medium trucks, buses, military vehicles, trailers and off-highway vehicles. The Meritor Advanced Engineering team is growing. They opened a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives which represent the whole Asia Pacific region. This team is also responsible for supporting the needs of their worldwide engineering personnel.

The Quality team at Meritor is a customer-focused and dynamic group which is devoted to ensuring optimum growth at their aftermarket distribution facilities and production plant that are situated on 5 continents and in 19 countries.

They have their supplier network that is specially situated so as to support the development of the business. Each regional team has globally supported quality systems, initiatives and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a fact-based, data-driven approach to decision making within every aspect of the company. The DFSS or also referred to as Design for Six Sigma ensures product reliability in each region. The team is even comprised of transactional Green Belts who utilize Six Sigma tools to business processes and implement lean methods.
