

Clark Forklift Part

Clark Forklift Part - Performing worldwide, there are now 350,000 Clark forklifts and lift vehicles in operation, with more than 250,000 of those in use in North America. Clark has five major lines of forklifts across the world, making it one of the most expansive companies in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand powered trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift, covers more than 120,000 individual components fabricated for 20 exclusive models of lift trucks and automated equipment. Your local Clark Seller is your total source for availability of all your parts needs supplied by Clark Totalift.

Clark features a phenomenal Parts Distribution team. The components warehouses are conveniently situated in Changwon, South Korea and Louisville, Kentucky to ensure exceptional service to both their buyers and their dealers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing manufacturers. Motivated to supply the highest level of value and service to our clients, Clark remains on the leading edge when it comes to enhancing productivity and benefiting performance.

Globally, Clark has one of the most amazing dealer support networks. With over 550 locations globally, seller representation in over 80 countries and 230 locations in North America, their high level of commitment to their customers predominates the material handling market.

By pioneering the operator restraint system protection feature, Clark proudly remains a leader of refinement in the industrial equipment and automated forklift industry. This exceptional commitment to safety is at this time a customary feature on every forklift.

Clark's continual goal to possess the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck maker across the world to be certified with the globally accepted quality standard ISO 9001 for every one of their production plants. Furthermore, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be ready for any number of environmental limitations, thus placing them in a prevailing industry position.

Clark has preferred the particularly economical and advantageous system of "Lean Production" for its assembly facilities and use of resources. This system was developed to acknowledge the most effective approaches of manufacturing plant stewardship and ensuring maximum proficiency. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

By working together, Clark's product suppliers and engineers communicate towards enhancing product proficiency while minimizing costs. The contemporary value engineering program combines modern product improvement and offers superior customer support and service within the industry.
